MUonE News

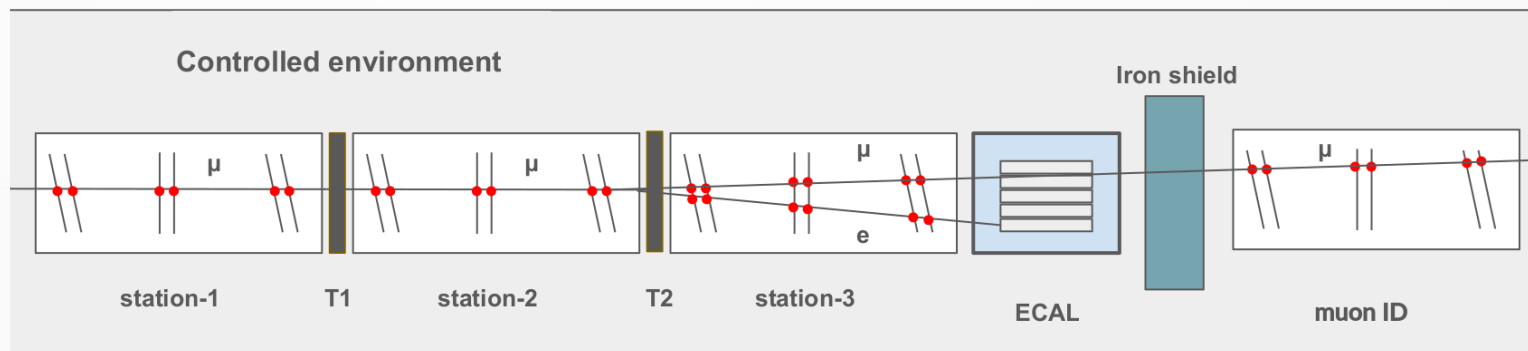

Muon Group Meeting
16 December 2024

MUonE Phase 1

- Proposal for MUonE Phase-1 was submitted this Summer.
- The SPS Committee approved the Test Run for 2025.
- Expected in the first half of 2025
(detector commissioning: ~May, data taking ~June).

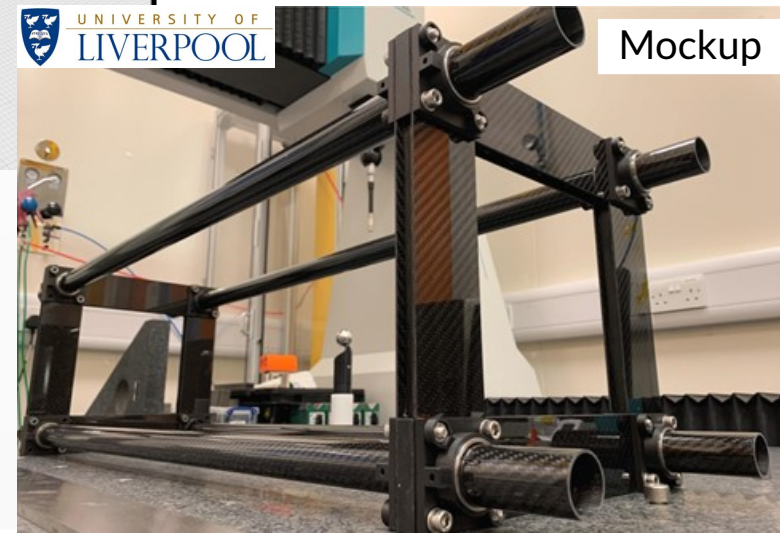

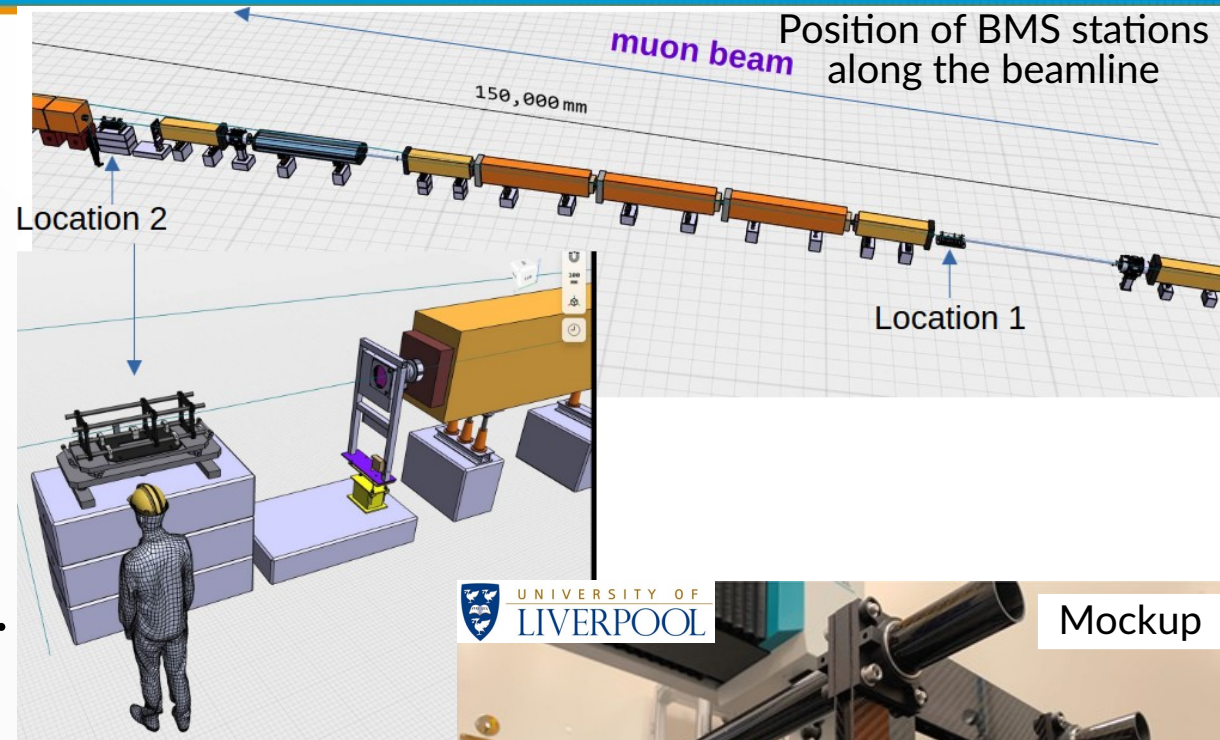

BMS

- 3 tracking stations.
- 2 graphite targets
(2 cm thickness each).
- ECAL.
- Muon ID.
- BMS (Beam Momentum Spectrometer).

BMS

- Carbon fiber mechanics (Themis, John Carroll): production expected to start in January.
- Work in progress on simulation and track reco software (Fedor).

Additional ongoing activities

- DQM for 2025 run (Saskia).
- **Test Run 2023 data analysis:**
 - Work ongoing to improve track reconstruction and alignment.
 - Optimize disk space of the reconstruction output (Katie, Clement).
 - Found huge differences between data and MC (i.e. in the angular resolution):
improve simulation of the silicon sensors (Giorgia).
 - Develop alternative reconstruction algorithms (Clement).
