

LEVERHULME RETREAT WELCOME PACKET

16th September - 19th September 2025

Welcome to the first Leverhulme Physics retreat !
The goal of this 4 day retreat is for you to have fun and engage with physics in a relaxed way.

Caer Beris Manor has 21 beautifully decorate bedrooms, each with their own en suite bathroom. There are drawing rooms where you can relax and open fireplaces. Outside, the gardens offer a peaceful place to wander. You might choose to relax in the hot tub, or spend some time by the River Irfon. There's also an above-ground pool, open from April to October, with loungers and seating.

The activities have been carefully planned with the goal of facilitating physics discussions that as a group we don't always get the chance to have. We ask that you give each session your upmost attention and participation. and most importantly have fun !
