

TEACH A PHYSICIST

Physics Retreat Session 2

AIM

- The aim of this session is to demonstrate the following things:
 - We are all experts in something
 - We are all students of many things
 - Anybody can learn anything if taught in the correct way for them

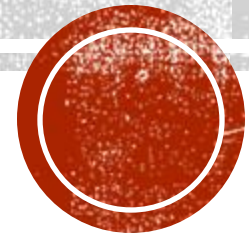

THE TASK

- Teach your physics partner something of your work that they know nothing of or very little about.
- Each of you will present 1 slides about what you have learnt from your pair.
- Everyone will present their slides to the whole session and answer questions if there are any.
- You will have 1h to teach and learn
- (please send me both of your slides together in a zip folder)

HACKATHON

Physics Retreat Session 6

We love outreach
because .. but ...

**WHY DO WE NOT DO
MORE OUTREACH ?**

THE TASK

- Come up with an outreach project idea.
- This could be aimed at any audience e.g.
 - Primary school children
 - The General public
 - Undergraduate physicists
 - People abroad ect
- Criteria:
 - Something that is feasible and could be done by your group in the future
 - This should be fully costed monetarily and in terms of FTE hours
 - Details ... Details ... Details
- You have 1 hr to come up with a project before presenting to the group.
